

# ISCCRO'22

The 4<sup>th</sup> International Statistical Conference in Croatia  
*Applied Statistical Methods – Current trends and issues*  
5-6 May 2022, Opatija, Croatia

## Call for papers

We are looking forward to welcoming the academic, research and professional community to the beautiful city of Opatija from 5<sup>th</sup> - 6<sup>th</sup> May 2022 for the fourth International Statistical Conference in Croatia – ISCCRO'22, organized by the Croatian Statistical Association (CSA), co-organized and hosted by the University of Rijeka, Faculty of Tourism and Hospitality Management.

The conference will provide a platform for international and national networking and exchange of ideas on various aspects of tourism and statistics and other relevant professional and scientific areas, bringing together researchers and practitioners with the aim of establishing contacts, presenting scientific ideas and experiences.

We would like to invite scholars, post-graduate students and doctoral candidates to the ISCCRO'22 conference because of the wide-ranging theoretical and applied statistical topics, discussed by broader audience, which makes this conference unique in Croatia. This conference is for **scientists, data producers and data users**, therefore it is the best place for sharing and exchanging information and building networks, in a friendly and supportive environment.

At ISCCRO'22 there will be **two** keynote speakers that are eminent professors from areas of **Tourism management** and **Digital transformation**, both **highly skilled in Quantitative methods and applications**. Namely, on the first conference day, **Associate Professor Josip Mikulić, PhD (University of Zagreb, Faculty of Economics and Business)** will give a plenary lecture entitled: *Reflective-formative confusion and common misconceptions in structural equations modeling*. Whereas the second conference day **Associate Professor Nebojša Stojčić, PhD (University of Dubrovnik, Department of Economics and Business Economics)** will give a plenary lecture entitled: *Economic effects of entrepreneurial zones: The caveats of spatial direct and indirect effects*.

Additionally, we are proud to announce that, for the first time at the ISCCRO conference, a **PhD Workshop (ECTS: 5)** will be held on **Friday, May 6, 2022** and **Saturday, May 7, 2022** by **Associate Professor Veljko Jeremić, PhD (University of Belgrade, Faculty of Organizational Sciences)**. PhD workshop aims at boosting knowledge and set of skills of PhD students needed for successful publication of their work in indexed journals. With the competition in steady rise throughout the years, publishing PhD work in JCR indexed journals becomes increasingly difficult and stressful. Our workshop will try to help PhD students better structure, write, and revise scientific manuscripts, while picking up a journal that adequately fits the draft.

## The ISCCRO'22 Important dates:

Registration and Abstract submission deadline:	<b>February 25, 2022</b>
Abstract acceptance notification deadline (review results):	<b>March 4, 2022</b>
Final Abstract submission due (after the Abstracts review)*:	<b>March 11, 2022</b>
<b>Full Paper submission**:</b>	<b>March 25, 2022</b>
Full Paper review results deadline:	March 30, 2022
Final Full Paper submission due (after the review):	April 5, 2022
Full Paper acceptance notification deadline:	April 15, 2022
Final date for Registration Fee payment: (cash payment is not possible)	<b>April 20, 2022</b>
Preliminary conference Program announcement:	April 25, 2022
<b>ISCCRO'20 Conference dates:</b>	<b>May 5-6, 2022</b>
Deadline for sending full paper to selected journal:	May 31, 2022

All of the abstract only and full papers abstracts accepted for the conference will be published in the **“Book of Abstracts of the ISCCRO – International Statistical Conference in Croatia”**.

Also, authors that participate at the ISCCRO'22 may select to publish their **full papers** in the following journals/publications:

### 1. PUBLICATION IN SELECTED HIGHLY INDEXED JOURNALS

- **Croatian Review of Economic, Business and Social Statistics (CREBSS) – Special Issue of ISCCRO'22**, published by Croatian Statistical Association and De Gruyter Sciendo (open accessed, indexed in EconLit). The CREBSS papers should have 3,000-8,000 words in total, with 6 Keywords and 250 words of Abstract, according to the CREBSS Authors Instructions.
- **Business Systems Research, Special Issue of ISCCRO'22 is scheduled for 2023**. The journal is published by De Gruyter Sciendo (indexed in ESCI-WoS and Scopus, Q3-Economics, Econometrics and Finance).

### 2. “Proceedings of the ISCCRO – international statistical conference in Croatia”

You can find more details on the ISCCRO'22 conference at: <http://www.hsd-stat.hr/en/international-statistical-conference-in-croatia-isccro22/>. If you have any questions regarding the conference, please feel free to contact us at: [conference@hsd-stat.hr](mailto:conference@hsd-stat.hr).

Best regards,

**ISCCRO'22 Organizing Committee**
